

Covid-19 support hubs. Here to help if you need it.

A network of Covid-19 support hubs is available across Cambridgeshire and Peterborough to help residents find the support they might need in their local area.

These hubs can support people who have nobody else to ask for help with tasks such as **food/prescription/medicine collections, befriending, dog walking and anything else that a resident needs.** They can also offer support to people whose lives have become more difficult as a result of the pandemic.

 **If you need help, please contact the Countywide hub**

Cambridgeshire and Peterborough Coordination Hub
